Instructions for the completion of the quality-of-life questionnaires by study participants

- 1) These questionnaires are an important part of your overall medical evaluation. The questions are designed to collect information about how your health has affected your quality of life from your own point of view.
- 2) Complete the questionnaire using a ballpoint pen. Press firmly and print neatly when writing to ensure that the copies are clear and legible.
- 3) Please take the time to read and answer each question carefully. Some questions may look similar to others, but each one is different.
- 4) Please answer every question by putting an ☐ in the box that best describes your answer. You may change an answer by drawing a line (☒) through the selection you wish to change and putting an ☐ in the box corresponding to the new choice.
- 5) There are no right or wrong answers. If you are unsure about how to answer a question, please give the best answer you can.
- 6) Your answers are confidential. The study coordinator will check for completeness only and will not share your answers with other clinical staff.
